LIGHT . SPEED . DISINFECTION

YOUR WATER, SAFE IN OUR HANDS

Elevate your RV adventures with UV-C LED water disinfection — safe, simple, and chemical-free!

SAFE FOR ALL: Campground or tank water can harbor harmful bacteria and viruses. Our UV-C LED technology instantly purifies it, and when paired with our pre-filtration, it tackles particulates and turbidity for crystal-clear results.

HEALTH PROTECTION: Protect your family and friends from waterborne illnesses, stomach upsets, and skin irritations with purified water for everyday use.

FRESH TANK WATER: The UV-8 series purifies water for drinking, cooking, and personal hygiene — such as showering or brushing teeth — ensuring safe, clean water wherever your adventures take you.

CAMP CONFIDENTLY: Pure water, anywhere. The compact, eco-friendly UV-8 series delivers safe, clean water at hookups or remote sites, so you can enjoy delicious meals, refreshing showers, and truly worry-free camping.

SUSTAINABLE

UV-8 eco

- ✓ Includes flow sensor
- ✓ Onboard function monitoring
- ✓ Optical status indicator

RRP \$399

UV-8 act

- ✓ Includes flow sensor
- ✓ Onboard function monitoring
- ✓ Optical status indicator
- ✓ Acoustic signal notification

RRP \$449

UV-8 safe

- ✓ Includes flow sensor
- ✓ Onboard function monitoring
- ✓ Optical status indicator
- ✓ Acoustic signal notification
- ✓ Flow sensor monitoring
- ✓ External power supply monitoring

RRP \$499

UV-8 SERIES — HIGH-TECH FOR PURE WATER

- Fully automatic water disinfection — directly at the point of use
- Disinfection performance up to 99.999%
- Flow rate up to 2.1 gallons/min
- Mercury-free, with no harmful disinfection byproducts
- Low power consumption
- Plug & Play — easy to retrofit
- Maintenance-free — no lamp replacement needed
- LED Lifespan: up to 10,000 hours of water dispensing
- Monitoring of temperature, lifespan, power supply, and signaling (depending on the model)

UV-8 steel

- ✓ Includes flow sensor
- ✓ Onboard function monitoring
- ✓ Optical status indicator
- ✓ Acoustic signal notification
- ✓ Flow sensor monitoring
- ✓ External power supply monitoring
- ✓ High-quality stainless steel housing

RRP \$549
